

Q: Why vote “NO” on Prop. 4? Because it puts teens at risk.

A: Parents rightfully want to be involved in their teenagers’ lives and we want our daughters to come to us if they become pregnant.

But in the real world, these laws don’t work. **No law can mandate family communication.**

Think about it, not all teens live in homes where communication is possible.

The reality is desperate teens take desperate measures.

She’s scared, she’s pregnant, what is she going to do?

She certainly can’t navigate a crowded courthouse and face a judge she’s never met before. She may take matters into her own hands by:

- resorting to an unsafe, back alley, or illegal abortion;
- going across the border; or
- even contemplating suicide.

Our daughters don’t need Prop. 4 – they need counseling and quality medical care without delay.

Proposition 4 Puts Our Teens at Risk

VOTE NO!
